No. 47

FIGHT FOR THE PASS

IN THE NEIGHBORHOOD OF
MUKDEN

An important battle in progress—
Nogi and his veterans are at the
front.

Bulletin Special.

London, Feb. 27th.—An action of no small proportion is in progress on the Russian left. The advantage so far is on the side of the Japanese though at a heavy cost. Their dead are lying in heaps and the Japanese are advancing to the charge over the bodies of their countrymen. It is difficult to say how severe the losses on both sides have been. The scene of operation is south-east of Mukden in an important defile commanding the road to Fusan. Nogi is there with his veterans from Port Arthur. The Japanese advancing with bayonets were received with hand grenades and burning mines.

Pennsylvania Battle.

Bulletin Special.

Mount Pleasant, Pa., Feb. 27th.—Two men were killed and six wounded in a fight which arose because a girl refused to dance with an unbidden wedding guest.

Campbell is annoyed.

Bulletin Special.

Winnipeg, Feb. 27th.—Attorney Gen. Campbell returned from an unsuccessful trip to Ottawa and suggests that Manitoba present a bill of Rights to the Dominion Government.

REGINA BANK BLOCK

DESTROYED BY FIRE YESTER-
DAY

Block of the Bank of Montreal at
Regina totally destroyed by fire—
Manager and family had narrow
escape.

Bulletin Special.

Regina, Feb. 27th.—The Bank of Montreal was completely destroyed by fire Sunday morning. The blaze supposed to have been caused by an electric wire. Manager A. F. Angus and family just managed to escape with their lives. A tremendous fire raged in the cellar where ten tons of coal were stored. The handsome brick residence, furniture, bank, fitting and contents are all gone. It is not known how the vault stood the fire as the firemen are still playing on the ruins. Loss \$50,000.

Toronto's Fatalities.

Bulletin Special.

Toronto Ont., Feb. 27th.—Five fatalities occurred here Saturday and Sunday from accidents and quarrels.

Challenged for the Cup.

Bulletin Special.

Montreal, Feb. 27th.—Victorias beat Quebec 8 to 1 and have challenged Ottawa for the Stanley Cup. They take precedence over Rat Portage.

Another Mine Horror.

Bulletin Special.

Wilcox, Van., Feb. 27th.—Another horror has occurred near here and 23 miners have lost their lives in a colliery explosion.

WANTED.

GOOD AGENTS FOR THE
Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

APPLY TO THE

QUALITY AND PRICE.

Absolute purity and highest quality in all drug store goods, with lowest possible prices always—is a combination in force at this store that makes it well worth while going out of your way to come here. Quality is made of chief importance. It is never sacrificed. After that comes price. Our goods are priced at a very close margin of profit. On equally high quality of goods we do not believe there are any lower prices anywhere else.

ALBERTA ITEMS.

Wetaskiwin Times—The price paid the patrons of the Wetaskiwin creamery last year was nearly 2½¢ per pound while the price paid for the season 1933 was nearly as high.

Ponoka Herald—The town council have lost no time in getting to work in the matter of purchasing recreation grounds, and by-law No. 14, which bears on the subject is published in our columns today.

Wetaskiwin Times—There seems to be something doing in railroad circles at this point as 110 cars of ties were received last week which increased the large pile by 39,000. We understand that there is sufficient material in the yard now to complete over 25 miles of track. Work was out to the survey camp a few days ago and incidentally mentioned that the revision from Sparling east to Quarrrel Lake would be finished in a week.

Ponoka Herald—W. V. Bennett, Canadian immigration agent, wrote to a friend in town from Council Bluffs, Iowa, on February 16, that he was sending 18 cars to Canada, on that date, but for over a week no freight had been moved owing to the snow. It has been the most severe weather recorded during the past ten years, and all the roads were completely blocked. The thermometer registered 32 below on two mornings and from 10 to 12 right along. It was a question as to when the people could get moved.

Insuffail Free Lance—Dr. George has received another fine specimen for his natural history museum. It is a black timber wolf which was shot near Bowden last week by H. Strawn. It is 5' 11", 3 1/2", from tip to tip and stood 3 ft. 6 in. high. It weighed over 200 pounds and has done much damage in the neighborhood. This is a very rare specimen. A timber wolf in this neighborhood has been seldom seen, and a black wolf is extremely rare south of Edmonton. Dr. George will have the wolf mounted whole for the museum.

Ponoka Herald—Concord Earlville is leaving no stone unturned in their endeavor to have a creamery started in their midst. The people appear to be unanimous on the subject, and on Thursday, March 2, they are to assemble at the Concord school-house to hear an address on the subject by D. Marker, government superintendent of creameries. As the time is fast approaching when a decision will have to be come to with regard to this season's output and it is hoped that something of a practicable nature can be accomplished.

Monday the 6th instant the settlers at Shepard were treated to one of those curious spectacles, a mirage. An image of the town of McLeod, which lies about one hundred miles to the south suddenly became clearly visible apparently over the south side of Shepard Lake. Not only was the town visible but a large circle of surrounding country dotted with ranches and other features of the landscape. People could be seen walking or driving in the streets. The Old Man's River with the Canadian Pacific railway bridge crossing it, the railway station itself and the cars standing on the track were all plainly pictured. The mirage lasted a bit over ten minutes and then vanished as quickly as it came.

Raymond Chronicle—W. A. Carr, an Englishman, employed as one of the well digging gang on Cannon's farm near Maynab, was the victim of a fatal accident on Saturday. On going to work that morning, which by an irony of fate was to have been the last day of his contract, Carr was felled in to the well in a back of, but his turn to work in the bottom of the 120 foot shaft. He had only been lowered some twenty feet under ground, when, evidently, he felt himself becoming overdone with gas, and he shouted to his mates at the windlass to pull him up. This they did, but the fumes of the "black damp" had already done their deadly work, and when within a few feet of

the surface Carr pitched from the bucket down the well.

By the death of Mr. Andrew Waterston, et., which took place at the home of his daughter, Mrs. D. MacEachern, Weaken, on Sunday evening last, the community loses one of its oldest and most highly respected citizens. Mr. Waterston was born in Kinross, Scotland, and was a ship-builder by trade, in 1858 he came to Canada and settled near Ottawa, where he hewed out for himself a comfortable home. Fourteen years ago, however, the deceased was seized with a desire to come west, and after exploring several sections of Alberta, he located seven miles south east of Wetaskiwin. This was before the C. & E. line was constructed. The deceased also had the distinction of being the first person to break land in township 45.

Because of an unfortunate law, not no hard coal has been mined at Bankhead for more than a year. The C. P. R. has opened out a new mine at Bankhead, two miles distant. The work of opening the mine was begun about a year ago, and up to date the company has expended nearly \$1,000,000 upon the work and upon building a handsome town. The pay roll at present amounts to \$45,000 a month. Unlike most coal mining towns, Bankhead is being made a place of beauty, already there are waterworks and electric light systems. There are streets of lasty and commodious residences for families all similarly equipped. In one such row are fifty houses designed alike and no two are painted with the same combination. The Bankhead coal is an excellent anthracite coal, and there is an enormous supply in sight. The company's "claim" is six miles in length. Imagine a cake of coal 11 feet thick, six miles long and as yet unknown width.

Wetaskiwin Times—The Leduc hockey team drove down on Tuesday last to cross sticks with the Wetaskiwin senior team. The game could hardly be called a swift one, but the close checking on both sides made it very interesting for spectators. The Leduc boys, for the chance they have play a very good game, and it was not a walkover for the home boys although the score was 11-3 in favor of Wetaskiwin. A painful accident happened to one of the visitors, which delayed the game some time, but that was the only mishap. After the game the visitors were royally entertained at supper at the hotel. The return game will be played shortly.

BULLETIN CO. (Ltd)

ROSS BROTHERS LIMITED

ARE THE SOLE AGENTS
IN EDMONTON FOR THE

MONARCH
RANGE...

There is no question as to what this Range can do or its durability, as thousands and thousands of them are in use on this continent and so far as we have been able to learn no fault has yet been found with them.

The main body of this Range is built up of sheet steel, and all the other parts that require to be cast are malleable iron. The top is ground to a bright steel finish, and is so heavy that, no matter how long or how hot you heat it, you cannot make it warp or get out of shape.

You will notice that the oven has a drop door, and the above cut illustrates the strength of this door, as any man can stand on it when it is open without straining it in the least. This will give some idea of the strength of the Stove, as all its parts are as strong as this cut of the oven door open with the salesman standing on it would convey to you.

It is a wonderful baker, a very quick heater, and its water front is so constructed that it will heat water nearly twice as quick and on a much less quantity of fuel than any other Range now on the market.

The purchaser of a MONARCH RANGE insures a satisfaction that cannot be measured in dollars and cents, for at the end of ten years' use it will operate as easily and be just as good as when first started.

Remember the MONARCH when you want to purchase a Range.

Ross Bros. Ltd.

WARWICK

On Friday Jan. 13, the annual meeting of the Fairwood S. D. was held in their school house. The retiring trustee, Wm. Woods postmaster at Warwick, was re-elected for another term.

The annual meeting of the Brush Hill S. D. was held in their school house on Saturday January 14. The retiring trustee Mr. Theobald Stroh was re-elected for another term.

On Monday Feb. 6 the Commonwealth Trading Co. gave a g and ball and party at their store in Warwick. "And Warwick's capital had gathered there her beauty and her chivalry, and bright the lamps shone o'er fair women and brave men."

On Friday evening the 17th inst. a number of the young people went to the carnival on the rink at Vegreville. Miss Sadie Woods in appropriate costume represented Miss Canada, Miss Florence Woods, Queen of hearts, and Miss Florence Whitney a High land lassie.

The many friends of the Rev. Mr. and Mrs. Rao in Warwick regret to hear of the death of their infant child. The circumstances were particularly trying as Mr. Rao had just returned from a visit to Ontario.

The Rev. Mr. Argue preached in the Warwick school house last Sabbath afternoon.

On Dec. 22, 1904, Mr. and Mrs. Smalley and family from Adams Co., Ohio, arrived at Warwick. Mr. Smalley has taken up a homestead in this vicinity.

Mr. McGowan of the same state and county took up a homestead here last summer. Mr. McGowan has returned to Ohio and intends to bring back his family and effects in the spring. These men are settlers of the right stamp and are welcome in Western Canada.

TO TRAIN GALICIAN TEACHERS

The department of education has opened a training school for Galicians on Minto street, in the west end of the city of Winnipeg, a large dwelling house having been leased for the purpose. The department has found it difficult to secure bi-lingual teachers for the school districts inhabited by Galician settlers, and consequently the schools have not been showing satisfactory results. The teachers have been weak in English, and have manifested a tendency to cling to the Galician language. An earnest attempt has been made to teach English the past year, but without any eagerness on the part of the Galicians. In fact, in many instances the pupils have been driven away from school, and were not being educated. By means of the training school just opened, it is expected that the difficulty will be overcome. It is expected that the course of training will be for five and forty candidates, all young men, from 20 years of age, some of whom have received a fair, good education in their native country. To the training school, some further education, of both the high school and university curriculum, the staff of bi-lingual and one English teacher. It is expected that it will take one year and a half to qualify the candidates to teach. The candidates will reside in the school.

The Booming Northwest.

Collier's Weekly:—A census every ten years is unable to keep up with the growth of the Canadian Northwest, and the Government proposes to cut the time in two, to be taken between 1901 and 1911. The population of British Columbia increased by nearly 82 per cent, Manitoba over 87, and the Territories almost 100. But all that dimly foreshadowed the progress of the four years since. Even a census every five years will be taken. And her proposed plan is effecting the growing Northwest is to create two new provinces there, divided by a north and south line. The existing boundaries were drawn when the whole region was practically a blank sheet of paper, and that it is rapidly becoming one of the richest and most populous parts of the American continent. The line will naturally have to be revised to fit the convenience of the people. By whatever name and given area may be known its soil will be just as fertile and its farms as attractive. It has been suggested that the new boundaries should be drawn from west to west, so as to create provinces with different natural conditions, but the Territorial representatives have preferred the other arrangement.

Croup

Mothers, never be without Hirst's Pain Exterminator in the house. No telling what night croup may attack the baby. With this family medicine handy, there's no danger of losing the little ones.

Hirst's Pain Exterminator

dissolves the phlegm in the throat—heals the inflamed lungs—cures the croupy cough—and sends baby into a natural, healthful sleep. It's a medicine for everybody—young and old. Cures rheumatism, neuralgia, headache, toothache, sprains, bruises, burns—pains of all kinds and any kind.

DR. JAMES BOUTEAUX OF ST. CLOUD, MAN., WRITES: "I could not do without Hirst's Pain Exterminator in the house. It is the best medicine for relieving pain that I ever met with. You may judge by the quantity we have used in six years that we have unlimited confidence in it."

MADE BY HAND

I HAVE each Pharaoh cigar rolled by hand! I do this in order that the leaves that go into the filler may be properly placed, with the top towards the burning end of the cigar.

It also enables the packing of the filler to be properly done—you will find my Pharaoh will smoke easily and evenly from end to end!

I see that the materials are of the highest grade as well.

Cuban tobacco I myself select from the Manicureagua district, in the Province of Santa Clara, is the filler—the most expensive Connecticut Broadleaf is the binder, and a clear, beautiful Sumatra I import from Holland is the wrapper.

My Pharaoh makes a mighty good smoke for the money.

RAVAGES OF FLAMES

LONG LIST OF SUNDAY FIRES

Railway terminals in New Orleans destroyed—Ontario village suffers.

Bulletin Special.

New Orleans, Feb. 27th—The Stay-ventant Docks at the Illinois Central terminals are burning, 14 squares of fire swept grain elevators. One million bushels of wheat as well as (40) freight cars, thousands of barrels of cotton, enormous quantities of sugar, oil, lumber and other costly merchandise are destroyed and many residences. The loss to date is over \$5,000,000.

Warroad, Minn., Feb. 27th—A terrific Sunday fire occurred here. Many places of business, mostly new buildings are utterly destroyed. Loss \$16,000, insurance \$11,000.

Canning, N. C., Feb. 27th—Fire wiped out one third of the village. Loss \$50,000.

Athens, Ont., Feb. 27th—The Model school here has been destroyed by fire. Loss \$20,000, insurance \$12,000.

Killed at Hockey

Bulletin Special.

Alexandria, Ont., Feb. 27th—Alex. De Lamin was killed by a hockey stick while playing with his team against Maxville.

Lord Morley Dead.

Bulletin Special.

London, Feb. 27th—Lord Morley Deputy Speaker of the House of Lords is dead. He was a brother-in-law of Earl Grey.

CALGARY'S PLAN.

From the Herald—People interested in the new Province of Alberta, and especially the citizens of Calgary need have no feeling of despair if Edmonton has been chosen as the provincial capital. Some place had to be selected for the first meeting of the members of the next legislative assembly. The wording of the bill will probably be that Edmonton is to be the Capital until some other place is selected by the executive council or ministry. This is the wording used with reference to the same question in the acts referring to the other provinces. The executive council, however, must be supported by the vote of the members of the assembly, or resign.

The new members will, therefore, decide the question of the capital at their first meeting, unless the matter is postponed.

The first officer to be appointed will be a Lieutenant-governor, with power to appoint such persons as he pleases as an executive council, one of whom will act as premier.

Probably following the precedent when Manitoba was erected into a province, he will call upon someone to form an executive council or cabinet at once. The elections will then be arranged for in the districts, as created by the powers that be at Ottawa.

This ministry will exercise a great power, and on its competition will depend largely whether the light is to be on straight party lines or not, with, of course, the question of the locality of the capital well to the front. Its competition will also largely influence the same question.

A Calgary man as Lieutenant-governor, or as premier, will be of supreme import. Citizens and electors must awake to the possible conditions of the fight ahead.

SPRING LIKE WEATHER.

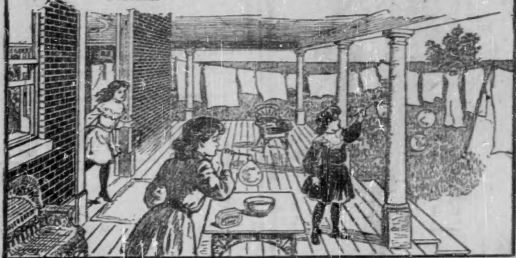

For two weeks Northern Alberta has been enjoying April weather in February. Bright mid days have succeeded each other without a break, the temperature rising daily higher as if winter were giving way to spring. The snow which was sufficient for fairly good sleighing disappeared so rapidly that wheeled vehicles began to appear on the streets early last week and toward the close of the week sleighs were given up entirely and now patches alone remain in shady places. On Saturday the boys were playing marbles where ever a dry spot could be found in a lane. Yesterday was an ideal spring day. The snow had disappeared from the sidewalks and a few occasional clumps alone required overcoats to be worn. The sun came out a ray, in the forenoon and long lines of people were soon to be seen on every street. All day crowds of happy people thronged the streets rejoicing in the warm air, the bright sun and the respite from the rigors of winter.

REPORT PUBLISHED

UPHELD BRITAIN'S CONTENTION

Commissioners Censure Rojstrensky but do not convict him.

Bulletin Special.

Paris, Feb. 27th.—The findings of the North Sea Commission published today confirms the last reports that England's contentions are upheld and that there were no torpedo boats in the North Sea at the time of the outrage. The report censures Rojstrensky for not notifying England of the trouble but does not convict him of committing the act wantonly. The Russian Commissioner disagreed with the Board in several points. It is however peace with honor for England. The American Admiral says arbitration necessarily expects both parties to give and take a little.

OPPOSED TO SEPARATE SCHOOLS.

In the Presbyterian church on Sunday morning, Rev. D. G. McQueen incidentally referred to the separate school clause of the new provincial autonomy bill. He strongly objected to the course taken by Premier Laurier in making provisions for separate schools in the proposed new provinces, believing that the question should have been left to the people of the new provinces themselves to decide. The speaker said that the people of Edmonton who had so lately been exercised over the location of the provincial capital, should not be so absorbed in what might be termed a mere shadow when compared with a matter of such national and lasting importance as the school question. He regretted that the newspapers were observing such absolute silence regarding the Premier's action, and declared that all who had the courage of their convictions should take immediate action to prevent if possible, the carrying out of the Dominion Premier's proposal.

COUNSEL RESUMES CASE.

In the Supreme Court on Saturday afternoon the hearing in the case of Rex vs. King, out on charge of murder was fixed for Wednesday of this week.

His Lordship announced that Mr. Biggar, counsel for the defence had withdrawn from the case and with the consent of the prisoner undertook to endeavor to procure counsel for him. His Lordship subsequently asked Mr. Biggar to resume the case and the request was complied with.

Iron Ore Prices.

The following was taken from one of the Duluth, Minn., papers is quoted as an indication of the growing value of the Alberta iron mines.

"Iron ore is to be advanced in price about sixty cents a ton. The estimates of production in the Lake Superior region during the coming year are that the total will be somewhat over 25,000,000 tons. This is based upon the present urgency of buying, and the fear that it is being expressed that the supply will fall close to, if not short of the needs during the winter. At any rate the present lively consumption of ore and the decrease which will probably be shown in the amounts on docks May 1st will not leave the surplus for operation next spring which was seen the first of last May. It is recalled that the furnaces had enough ore on hand to run them past the first of August without any renewal of supply. Such will hardly be the case this year. The supply being about equal to the winter needs, the buying will of course, be heavier this spring. Added to that factor is the fact that the number of furnaces consuming ore will be increased and pig iron conditions indicate that they will have a good market in the north for the product. Everything points this year to an enormous output, since the steel business seems to have started on one of its booms which is likely to go to extravagant extent. The demand for ore therefore and the shortage of the supply of it will have a tendency to increase the prices considerably above the level which they occupied last year."

The fields of the Edmonton Iron and coal company, which are situated near Victoria about 95 miles from Edmonton have all the indications of being rich in iron deposits and with the additional qualification of being easily worked and conveniently situated to a projected railway.

THE GREAT WEST LAND CO., Ltd.

Superfluous Hair

Removed by the New Principle

De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore, it will not cause blood poisoning, or produce eczema, which is so common with depilatories, and does not break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. DE MIRACLE is not. It is the only method which is indorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

DE MIRACLE will be mailed to any address, sealed in plain wrapper for \$1. Your money back without question if it fails to do all that is claimed for it.

Our booklet—the most complete treatise on Superfluous Hair ever published—containing the testimonials of numerous physicians and surgeons and those of hundreds of others—will be sent free, in plain, sealed envelope, upon request. Write for it to-day to DE MIRACLE CHEMICAL CO., 23 QUEEN STREET WEST, TORONTO, or THE ROBERT SIMPSON COMPANY LIMITED, 23 QUEEN STREET WEST, TORONTO, ONT.

Lifibacy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

EGG LAKE.

N. E. Logan was in Edmonton the early part of this week.

Mr. Guinette, of the Edmonton Music Co., paid us a visit on Thursday.

On Wednesday last a surveyor outfit passed through Egg Lake, heading towards the north-west.

The engine and drill lately used by the Egg Lake Oil Co., in sinking their first well, has been moved out on the lake.

On Friday, the 17th inst., the young son of Octave Savard, aged eight years, died of brain fever after an illness of several months, and was buried in the Egg Lake cemetery on Saturday afternoon.

The Government timber inspector paid a couple of visits lately to the timber a few miles north of Egg Lake, and confiscated several hundred logs that had been cut on a school section contrary to regulations. Others who have been cutting without permits have been warned to get permits at once, as otherwise they will be liable for illegally cutting timber on Government lands, February 24th, 1905.

STRATHCONA ITEMS.

From the Plaindealer:—

—Mr. Fred Grundy left last week for Vernon, B. C., where he has secured a position with a large mercantile establishment.

—Arrangements are being made for the Calgary hockey team to visit Strathcona and Edmonton next week or the week following, when a return game will be played on Strathcona ice.

—The public schools are full to overflowing and Principal Thompson is perplexed to know what to do with the large increase which always comes in the spring. He would like to have parents notify him of any little ones arriving at school age whom they wish to send in the spring that provision may be made for them by providing in the primary departments a little more or renting another room at some place about town.

—Mr. A. T. Spohn of the Imperial Bank here leaves for Trout Lake, B. C., where he will take a position in the bank's branch as accountant. This is a well earned promotion for Mr. Spohn, on which his many friends here will congratulate him, while regretting his removal from Strathcona, where he has been prominent in social and athletic circles for the last five years. He has always taken a deep interest in the hockey club, serving for some years as secretary of the club.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for soft coal, and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$750 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500 by 1500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.30.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 150 acres. The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the

N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for each bar or bench, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have one dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental, \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river, and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent, is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted.

A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and at least \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unoccupied land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 440 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

I TAKE extreme care of every leaf of tobacco that I buy. Ordinarily a "hand" of tobacco is soaked in water when it is received—I simply moisten the leaves in such a way as to only slightly dampen every part of every leaf. By this means the strength of the tobacco is not impaired—its smoking quality—fragrance and pungent deliciousness, is conserved to the smoker intact.

J. BRUCE PAYNE, Limited
Granby, P.Q.

My Favorite Cigars have as fine a high grade selected leaf of the Manzanilla district of Cuba, which I lay myself in Cuba—a blend of the celebrated Broadleaf of the Connecticut valley and a clear leaf wrapper—purest Sumatra, which I import direct from Amsterdam. My cigars are exceptionally good smokers.—J.B.P.

Ask Your Grocer

We Paid \$100,000

For Ligozone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Ligozone; the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ diseases with it—thousands of the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Test it as we did; see what it does. Then you will use it always, as we do, and as millions of others do. You will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

Kills Inside Germs.

Ligozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Ligozone its worth to humanity. And that worth is so great that we have spent over one million dollars to supply the first bottle free to each sick one we learned of.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Acidosis
Alcoholism
Asthma
Bronchitis
Eczema
Gastritis
Hepatitis
Hysteria
Leptospirosis
Malaria
Measles
Meningitis
Pneumonia
Scarlet Fever
Typhoid
Tuberculosis
Venereal Disease
Whooping Cough
Yellow Fever

There are many other germ diseases. Ligozone kills them all. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Ligozone its worth to humanity. And that worth is so great that we have spent over one million dollars to supply the first bottle free to each sick one we learned of.

50c. Bottle Free.
If you need Ligozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; so choose your what Ligozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Ligozone costs 50c. and 80c.

CUT OUT THIS COUPON
For this offer only not appear again. Fill in the blanks and mail it to The Ligozone Company, 127-129 Walnut Ave., Chicago.

My doctor is _____
I have never tried Ligozone, but if you will supply me a 50c. bottle free I will take it.
Give full address—write plainly.
Any physician or hospital not using Ligozone will be gladly supplied for a test.

EDMONTON ALTA. CANADA

POPULATION, 7,500

CITY GOVERNMENT:—

Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, J. H. Morris, Secretary, F. F. Tims.

Immigration Officer:—C. W. Sutter.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

LOCAL

—Train on time.

—Probs; fair and mild.

—The Strathcona hockey team returned from the south on Saturday.

—Saturday's C. & E. northbound was an exceptionally heavy train.

—The ordinances passed at the last session of the Legislative Assembly have been published and are being distributed.

—The Imperial Bank are distributing handsome calendars with the photos of Earl and Lady Grey.

—The Wetaskiwin Post reproduces the map of Alberta from the Calgary Herald showing the central location of Edmonton.

—The Fort Saskatchewan Reporter reproduces the Calgary Herald's historical "map" with a long editorial on the validity of the claims of Edmonton as illustrated by the map.

—The first issue of the Farm and Ranch Review, the new agricultural journal published at Calgary is to hand. The number is a very creditable publication and contains a large amount of information useful to farmers and stockmen throughout the West.

—Regina Standard:—A delegation from Saskatoon has waited on Premier Laurier, and asked for \$55,000 to assist in building a bridge over the Saskatchewan. The Prime Minister promised to consult Mr. Sifton on the matter. The delegation was introduced by Mr. Limont, M. P.

—Chief Moosteos and nephew Basil of Lesser Slave Lake, are in town this week as witness in the murder trial. They called at the Bulletin office where they saw a newspaper being published for the first time. The chief said that in his own country he considered himself no fool but he saw things performed here that only gods could do. Years ago he had seen the Hudson's Bay men reading the Bulletin when it was only about the size of your hand, but it has kept pace with the growth of the country. The chief was of very material assistance to Sgt. Anderson in securing evidence in the King murder case.

PERSONAL

Peter Gussn, of the H. R. Co's post at Lac Ste Anne, is in the city.

Judge Scott returned to the city on Saturday from McLeod.

Rev. Father Carlier from St. Albert went to Calgary on Saturday.
